ABOUT THE COURSE

The IP Press is delighted to launch its flagship course on IP & Fintech which is one of the newly emerging lines of law and technology. The Fintech Industry presents several disputes ranging from regulatory issues to international governance to data privacy to intellectual property laws and whatnot. Such issues propel techno-legal debate and offer enormous opportunities to law graduates specifically to make a career out of this niche area. The certificate course on IP & Fintech has been designed for all fintech and IP law enthusiasts. With a faculty made up of recognized professionals in the world of IP law and fintech industry, this course provides the knowledge and skills necessary to become an excellent technology advisor at entry-level, with solid legal foundations and a broader vision of the sector.
